Top Skills

SwiftUI

Swift Concurrency

Mobile Architecture

Languages

English (Full Professional)

Tamil (Native or Bilingual)

Hindi (Professional Working)

Certifications

Apple Developer Academy Graduate

Summary

Mobile engineer with nine years on iOS and Android, now leading iOS at a fitness app with two million users. I enjoy fast, accessible apps, a modular codebase that new joiners understand in a week, and release trains that never slip.

Experience

Fitpulse

Senior iOS Engineer

June 2021 - Present (5 years 5 months)

Bengaluru, India

- Rewrote the workout flows in SwiftUI with Swift concurrency (async/await, actors).
- Offline-first storage with Core Data and background sync; modular architecture in 18 Swift packages.
- XCTest unit and UI tests, snapshot tests; weekly App Store releases through fastlane in CI.
- VoiceOver and Dynamic Type support across the app; launch time cut by 40% after profiling with Instruments.
- Mentor three iOS engineers and run the mobile guild.

Travelly

Mobile Engineer

April 2018 - May 2021 (3 years 2 months)

Bengaluru, India

- iOS app in UIKit and Android app in Kotlin with Jetpack Compose for the new booking flow.
- Prototyped a React Native version of the trip planner; REST and GraphQL APIs with the backend team.

Appforge

Android Developer Intern

July 2017 - September 2017 (3 months)

Chennai, India

Built a small Android app in Java for the company's event check-ins.

Education

Anna University

Bachelor of Engineering - BE, Computer Science · (2013 - 2017)

Honors-Awards

Apple Design Award finalist, team Fitpulse (2024)
