Top Skills

Apache Airflow
dbt
Data Modeling

Languages

Turkish (Native or Bilingual)
English (Full Professional)

Certifications

AWS Certified Data
Engineer – Associate

Deniz Arslan

Senior Data Engineer at Paylane | Spark, Kafka, dbt
Istanbul, Türkiye

Summary

Data engineer with eight years of experience building batch and streaming pipelines for payments and e-commerce. I like turning messy event data into reliable, well-modelled tables that analysts trust.

Experience

Paylane

Senior Data Engineer

March 2022 - Present (4 years 8 months)
Istanbul, Türkiye

Led the move from nightly batch jobs to streaming with Kafka and Spark Structured Streaming.

Built the dbt project (300+ models) on Snowflake, with data quality tests and CI on GitHub Actions.

Orchestration with Airflow on Kubernetes, infrastructure in Terraform on AWS.

Mentored three junior engineers and wrote our data contracts guideline.

Trendmarket

Data Engineer

June 2019 - February 2022 (2 years 9 months)
Istanbul

Built ingestion pipelines in Python and SQL from PostgreSQL and MongoDB into BigQuery.

Designed star schemas for the marketing team's warehouse, tuned slow queries, and set up monitoring with Prometheus and Grafana. Docker for local development.

Veriyol Analytics

Junior Data Analyst

September 2017 - May 2019 (1 year 9 months)
Ankara

Reporting in Excel and Tableau, ad-hoc SQL analysis, A/B test readouts with basic statistics in pandas.

Education

Middle East Technical University

Bachelor of Science - BS, Computer Engineering · (2013 - 2017)
