

Ahmet Kurt

Unity Game Developer · Istanbul · ahmet.kurt@example.com

Summary

Gameplay programmer who loves physics-heavy mobile games. React quickly to playtest feedback.

Experience

Game Developer — Tilt Games · Apr 2022 - Present

- Gameplay and physics systems in Unity with C# for three hybrid-casual mobile games (20M downloads).
- Optimised draw calls and memory with the Unity Profiler; wrote simple shaders in Shader Graph and HLSL.
- Online multiplayer with Photon; vector maths for camera and aiming systems.
- Worked with designers on level and economy design; Git with Plastic SCM migration.

Education

Bahçeşehir University, B.Sc. Digital Game Design (2018 - 2022)

Skills

Unity, C#, object-oriented design, design patterns, Photon, Shader Graph
